交通アクセス

ご来場の際は、公共交通機関をご利用ください。
東京ビッグサイト 南3ホール
https://www.bigsight.jp/

Table detailing transportation routes to the exhibition, including train lines (JR, Keio), bus routes, and walking distances from major stations.

入場方法

Registration and entry flow diagram. Includes steps for online registration, QR code printing, and entry into the exhibition hall.

エヌプラスが大幅リニューアル!

Exhibition structure overview. Lists 12 keyword-based exhibition themes such as 'Plastic High Performance Exhibition', 'Lightweight/High Strength Exhibition', and 'Sustainable Environmentally Conscious Materials Exhibition'.

9月13日[水]

Table with 2 columns of seminar sessions for 9/13. Sessions include NP-01 to NP-05 covering topics like high polymer materials, JEC World market trends, and carbon neutrality.

9月14日[木]

Table with 2 columns of seminar sessions for 9/14. Sessions include NP-06 to NP-10 covering topics like polymer materials, bioplastics, carbon fiber, and lightweighting history.

9月15日[金]

Table with 2 columns of seminar sessions for 9/15. Sessions include NP-11 to NP-15 covering topics like next-generation plastics, 3D printing materials, circular economy, and AI/XR.

Table with 2 columns of seminar sessions for 9/13 (Venue B). Sessions include FC-01 to FC-04 covering topics like flying car market, economic development, and ReAMO project.

Table with 2 columns of seminar sessions for 9/14 (Venue B). Sessions include FC-05 to FC-09 covering topics like mobility hubs, flying car business, risk surveys, and autonomous vehicles.

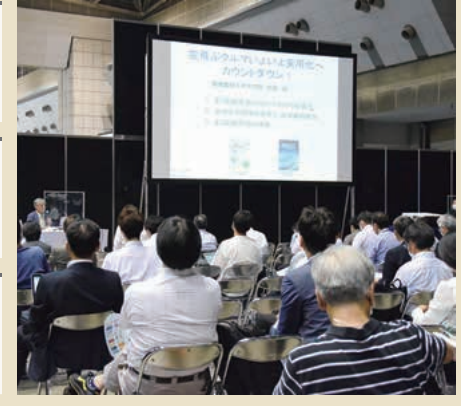

Table with 2 columns of seminar sessions for 9/15 (Venue B). Sessions include FC-10 to FC-14 covering topics like flying car business, 2022 test results, latest business models, and regional cooperation.

Table with 2 columns of exhibitor seminar sessions for 9/13. Sessions include EX-01 to EX-05 covering topics like UV-curable materials, digital energy, CFRP, and functional films.

Table with 2 columns of exhibitor seminar sessions for 9/14. Sessions include EX-06 to EX-09 covering topics like resin materials, high-capacity batteries, and smart energy.

Table with 2 columns of exhibitor seminar sessions for 9/15. Sessions include EX-10 to EX-12 covering topics like UV absorbers, biodegradable materials, and thermal interface materials.

主催者企画

実機展示 (Actual Machine Exhibition) section with details on AirX and eVTOL Japan aircraft.

企画展示 (Event Exhibition) section with details on the flying car flight experience.

NCCパビリオン (NCC Pavilion) section with a list of participating companies.

機能性フィルム研究会パビリオン (Functional Film Research Association Pavilion) section with a list of participating companies.

N-Plus 会場レイアウト (Venue Layout) section showing the floor plan of the exhibition hall.
